

Asbestos Bulk Sampler

The safest, most efficient way to collect bulk samples

Specifications

Includes:

Rugged carrying case with fold-down handle and positive grip latch, two handles, two plungers, and 100 cutter sleeves in clear slim vials with caps

Dimensions:

13" L x 11" W x 4" H

Materials:

Plastic case, aluminum handles, aluminum cutter sleeves, clear plastic slim vials, and vinyl press fit caps

Weight:

8 lbs.

Finish:

Silver cutter sleeves, brushed aluminum handles and plungers, red vial caps, case color varies

Miscellaneous:

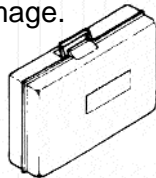

Optional items available: double-length cutters, power driver, coring arm, Wonder Fill repair insulation, and plunger adapter

- ▶ Removable cutter eliminates field decon and cross contamination problems.
- ▶ Small bore reduces fiber release for safer sampling.
- ▶ Lightweight and compact for easy transport.
- ▶ Complete with rugged carrying case and detailed instructions.
- ▶ Double-length cutters available for extra-deep samples.
- ▶ Optional power driver encourages full depth sampling for increased accuracy.

Bulk Sampling System

1)

Durable, compact case holds everything needed to collect 100 samples while maintaining a professional image.

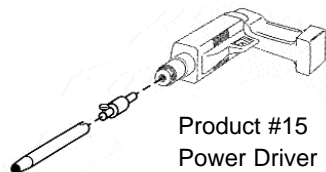

Product #10
Asbestos Bulk Sampler

2)

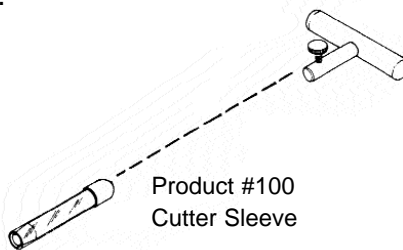

Individual cutter sleeve packed in clear vial prevents cross contamination of samples. Extra long cutters available for double wrap insulation.

3)

Attach cutter sleeve to the T handle, power driver, or coring arm for easy full-depth sampling.

Product #15
Power Driver

Product #100
Cutter Sleeve

Product #105
Handle

4)

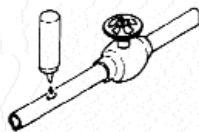

Label and ship in original container. Special "Write-On" plastic and tight cap eliminate the need for labels, film canisters, etc.

5)

Use Wonder Fill to repair core hole with high temperature repair insulation. Permanent patch reduces exposure.

Product #13
Wonder Fill
Insulation

6)

After receipt of lab results, use coring arm to quickly mark ACM for pre-bid walkthrough, O&M, etc.
